

Psychology (PSYC)

The science of psychology investigates human and animal behavior, cognition, and emotion by analyzing the complex interactions between environmental, social, cultural, and biological influences. Students are trained in scientific methods and different theoretical perspectives in a variety of areas of psychology: physiological psychology, neuropsychology, sensation and perception, cognition, learning, child and adult development, social psychology, personality, health psychology, abnormal psychology, and animal behavior. In short, psychology seeks to explain and understand how and why people and animals think and behave in the ways they do.

Through acquiring a better understanding of behavior, cognition, and emotion and scientific methods of investigation and analysis, psychology majors are well prepared to enter many fields. A major in psychology can lead to graduate study enabling a career in many areas of psychology, from experimental research to clinical/counseling work. Psychology majors also pursue further education and careers in law and medicine. Psychology majors who do not pursue graduate study are well prepared for a variety of careers in the corporate and not-for-profit sectors, relying on the skills they have developed in their psychology courses, such as scientific reasoning, writing, data analysis, critical reading, writing and presentation skills.

Psychology Major

A **major** in psychology consists of nine course credits: Two courses above the 200-level, at least one of which must be taken at Bucknell. Majors may use an independent research course (PSYC 329 Undergraduate Research, PSYC 360 Honors Thesis) to satisfy one of these requirements. At least one of the courses above the 300-level must be one the department has designated as meeting the Culminating Experience requirement (described below)

PSYC 100	Introduction to Psychology	1
PSYC 215	Psychological Statistics ¹	1
or MATH 216	Statistics I	
Five 200-level courses ²		5
Two courses above the 200-level ³		2
Total Credits		9

- ¹ Majors should complete PSYC 215 Psychological Statistics by the end of the sophomore year.
- ² At least one course must come from each of the A, B, and C clusters. No more than one course from cluster C and one course from cluster D may count toward the major. All 200-level requirements, including the research methods seminar, should be completed by the end of the junior year. The optimal scheduling of these courses should be determined in consultation with a member of the department, and is especially important for students who enter the major late, hope to study abroad, or have strong preferences among alternative courses.
- ³ At least one course must be taken at Bucknell. Majors may use PSYC 329 Undergraduate Research or PSYC 360 Honors Thesis to satisfy one of these requirements. At least one of the courses above the 300-level must be one the department has designated as meeting the Culminating Experience requirement.

Cluster A

PSYC 203	Learning	1
PSYC 204	Human Cognition	1
PSYC 250	Biopsychology	1
PSYC 252	Sensation and Perception	1
PSYC 266	Animal Behavior	1

Cluster B

PSYC 207	Developmental Psychology	1
PSYC 209	Social Psychology	1
PSYC 210	Psychopathology ⁴	1
PSYC 211	Health Psychology	1
PSYC 212	Emotion	1
PSYC 213	Abnormal and Clinical Psychology ⁴	1
PSYC 228	Personality Psychology	1
PSYC 248	Developmental Psychobiology	1

- 4 PSYC 210 Psychopathology and PSYC 213 Abnormal and Clinical Psychology cannot both be counted toward fulfilling the 200-level course requirement

Cluster C

PSYC 288	Applied Research Methods Seminar in Language	1
PSYC 289	Applied Research Methods Seminar in Health Psychology	1
PSYC 290	Applied Research Methods Seminar in Physiological Psychology	1
PSYC 291	Applied Research Methods Seminar in Abnormal Psychology	1
PSYC 292	Applied Research Methods Seminar in Sensation and Perception	1
PSYC 293	Applied Research Methods Seminar in Learning	1
PSYC 294	Applied Research Methods Seminar in Human Cognition	1
PSYC 295	Applied Research Methods Seminar in Emotion	1
PSYC 296	Applied Research Methods Seminar in Animal Behavior	1
PSYC 297	Applied Research Methods Seminar in Developmental Psychology	1
PSYC 298	Applied Research Methods Seminar in Personality	1
PSYC 299	Applied Research Methods Seminar in Social Psychology	1

Cluster D

PSYC 227	Cross-cultural Psychology	1
PSYC 232	Psychology of Women	1
PSYC 233	Black Psychology	1
PSYC 234	Introduction to Sport Psychology	1
PSYC 235	Human Sexuality	1
PSYC 236	Drugs and Behavior	1
PSYC 242	Positive Psychology	1

Or additional psychology courses with departmental approval.

Psychology majors satisfy the requirements of the College Core Curriculum for writing, information literacy, and presentation skills through their Applied Research Methods (Cluster C) course. All students select one course from this cluster, which provides formal training in writing, library and information research, and presentation skills, in the context of psychological research. Frequent instruction and practice in writing, information search, and presentation skills are also provided in a variety of additional courses at all levels of the major. (See Meeting the CCC requirements for specific information)

To complete the Culminating Experience requirements of the College Core Curriculum, students select one of their 300-level courses from a list of those identified by the department as drawing from and integrating an especially broad variety of perspectives and research areas of psychology. Alternatively, students who are academically eligible to participate in the Honors Program in their senior year may undertake an original research project leading to a written Honors Thesis. Successful completion of Honors Thesis requirements defined by the University Honors Council fulfills the Culminating Experience requirement. (See Meeting the CCC requirements for specific information)

The department strongly encourages students to engage in independent research, done in close collaboration with a faculty member, either on a volunteer basis or for academic credit. This is an excellent preparation for graduate study, and also an exciting way for students to apply the skills they learn in their coursework by engaging intellectually in the process of discovery in psychology. Seniors, if academically eligible, often conduct senior honors projects and many others conduct independent studies. Many psychology majors study abroad for a semester and courses taken abroad usually transfer.

Meeting the CCC Requirements

Writing Within the Major

Psychology majors can satisfy the Writing in the Major requirement by taking:

Select one of the following:

- PSYC 100 Introduction to Psychology
- 200-level psychology courses that are not Applied Research Methods Seminars
- Applied Research Methods Seminars
- 300-level Psychology courses

Formal Presentation Experience

Psychology majors can satisfy the Formal Presentation Experience requirement by taking: Applied Research Methods Seminars, or:

PSYC 305	Developmental Psychopathology	1
PSYC 307	Culture and Child Development	1
PSYC 309	Appetite and Eating Behavior	1
PSYC 311	Advanced Health Psychology	1
PSYC 317	Comparative Animal Cognition	1
PSYC 318	Cognitive Aging	1
PSYC 325	Advanced Personality Theory	1
PSYC 339	Psychology of Music	1
PSYC 348	Behavioral Pharmacology	1
PSYC 350	Culminating Research Experience+	1
PSYC 352	Face Perception	1
PSYC 370	Primate Behavior and Ecology	1

Additionally, psychology majors can fulfill this requirement by completing an Honors Thesis.

Information Literacy

Psychology majors can fulfill this requirement by taking: an Applied Research Methods Seminar, or 200-level psychology courses, or 300-level psychology courses, or by completing an Honors Thesis or an Independent Study.

Culminating Experience

Select one of the following to be taken during the senior year:

300-level psychology courses ⁵		
Children's Studies taught by Prof. Boyatzis		
PSYC 301	History of Psychology	
PSYC 303	Critical Psychologies	
PSYC 360	Honors Thesis	1

⁵ that list numerous courses as options for meeting the prerequisites

Minors in Psychology

Two **minors** are offered in psychology.

Cognitive and Perceptual Sciences Minor

1. For students who take PSYC 100 Introduction to Psychology, the minor consists of:

PSYC 100	Introduction to Psychology	1
PSYC 215	Psychological Statistics (or equivalent)	1
PSYC 204	Human Cognition	1
or PSYC 252	Sensation and Perception	
or PSYC 292	Applied Research Methods Seminar in Sensation and Perception	
or PSYC 294	Applied Research Methods Seminar in Human Cognition	
PSYC 318	Cognitive Aging	1
or PSYC 352	Face Perception	

2. For students who do not take PSYC 100 Introduction to Psychology, the minor consists of:

PSYC 215	Psychological Statistics (or equivalent)	1
PSYC 204	Human Cognition	1
or PSYC 252	Sensation and Perception	
or PSYC 292	Applied Research Methods Seminar in Sensation and Perception	
or PSYC 294	Applied Research Methods Seminar in Human Cognition	

PSYC 318	Cognitive Aging ⁵	1
PSYC 352	Face Perception ⁵	1

⁵ With the approval of the department chair, a research project in cognition or perception (PSYC 329 Undergraduate Research, PSYC 360 Honors Thesis) could be substituted for either PSYC 318 Cognitive Aging or PSYC 352 Face Perception for those students who do not take PSYC 100 Introduction to Psychology.

Neuropsychology Minor

PSYC 100	Introduction to Psychology	1
PSYC 204	Human Cognition	1
PSYC 215	Psychological Statistics (or equivalent)	1
PSYC 250	Biopsychology	1
PSYC 349	Human Neuropsychology	1
Select one of the following: ⁶		1
PSYC 210	Psychopathology	
PSYC 212	Emotion	
PSYC 252	Sensation and Perception	
PSYC 305	Developmental Psychopathology	
PSYC 309	Appetite and Eating Behavior	
PSYC 318	Cognitive Aging	
PSYC 339	Psychology of Music	
PSYC 352	Face Perception	
PSYC 340	Behavioral Neuroscience	1

⁶ With the approval of the department chair, independent research in neuropsychology (PSYC 329 Undergraduate Research, PSYC 360 Honors Thesis) may be used to satisfy this last requirement.

A program for honors in psychology must include PSYC 360 Honors Thesis.

Nonmajors are encouraged to discuss sequences of courses appropriate to their academic goals with any member of the department.

Faculty

Professors: Chris J. Boyatzis, David W. Evans, Judith E. Grisel, Andrea R. Halpern, Peter G. Judge, John T. Ptacek (Chair), Michael A. Smyer, T. Joel Wade

Associate Professors: Kimberly A. Daubman, William F. Flack, Kevin P. Myers

Assistant Professors: Regina Gazes, Aaron Mitchel, Jennifer Rice Stevenson, Ruth Tincoff

Visiting Assistant Professors: Agnieszka J. Jasinska, Jean Lamont

Courses

PSYC 100. Introduction to Psychology. 1 Credit.

Offered Both Fall and Spring; Lecture hours:3,Other:2

A survey of concepts, principles, and theories of an empirical science of behavior.

PSYC 116. Statistic Literacy for 21st Century. 1 Credit.

Offered Summer Session Only; Lecture hours:6

An investigation of the concepts and the reasoning underlying the interpretation of data and chance to enable students to critically evaluate statistical information, data-related arguments, or random phenomena, they may encounter in diverse contexts. Emphasis on how statistical analysis is useful. Basic methods for gathering trustworthy data, elementary graphical and numerical techniques for analyzing. Open to students enrolled in the BCCSP program only.

PSYC 132. An Exploration of Gender. 1 Credit.

Offered Summer Session Only; Lecture hours:3

This course will consider biological bases and social construction of gender from anthropological, psychological, and literary perspectives. Open to BCCSP students only.

PSYC 133. Black Psychology. 1 Credit.**Offered Occasionally; Lecture hours:4**

Black self-concept, the black family and self-awareness, "black English", skin color and physical attractiveness standards, black self-esteem, black views on prejudice and discrimination. Open to BCCSP students only.

PSYC 135. Psychology of Health and Adjustment. 1 Credit.**Offered Summer Session Only; Lecture hours:3**

This course examines adjustment of individuals to their personal and social environments. Both physical and psychological adjustment will be examined. Special emphasis will be placed upon developing an understanding of skills in the area of stress, effective coping, interpersonal relationships, sexuality, work, achievement of adult maturity, psychological and physical well-being and psychotherapy. This course is designed to promote personal growth. Open to BCCSP students only.

PSYC 169. Psychology of Attraction and Relations. 1 Credit.**Offered Summer Session Only; Lecture hours:6**

Examination of how biology influences: what our mate preferences are and where they come from, the correlates of beauty, relationship initiation and maintenance, love, jealousy and mate expulsion. Open to BCCSP students only.

PSYC 1NT. Psychology Non-traditional Study. 1-2 Credits.**Offered Fall, Spring, Summer; Lecture hours:Varies**

Non-traditional study in psychology. Prerequisite: permission of the instructor.

PSYC 203. Learning. 1 Credit.**Offered Both Fall and Spring; Lecture hours:3**

The study of basic mechanisms of associative learning in motivated behavior, especially Pavlovian and operant conditioning in the behaviors of various species. Prerequisite: PSYC 100 or ANBE 266 or NEUR 100 or permission of the instructor.

PSYC 204. Human Cognition. 1 Credit.**Offered Both Fall and Spring; Lecture hours:3**

A survey of the theories and methods employed in studying human mental abilities. Issues include attention, memory, language, problem solving, and decision making. Prerequisite: NEUR 100 or PSYC 100 or permission of the instructor.

PSYC 207. Developmental Psychology. 1 Credit.**Offered Both Fall and Spring; Lecture hours:3**

Study of stages, sequences, and processes in normal child development, prenatal through childhood. Emphasis on interaction of nature and nurture in cognitive, social, emotional development. Prerequisite: PSYC 100, EDUC 201 is accepted as an alternate prerequisite for students who are Education Bachelor of Science majors, or permission of the instructor.

PSYC 209. Social Psychology. 1 Credit.**Offered Both Fall and Spring; Lecture hours:3**

Theories of social influence and social interaction, their empirical foundations and implications for the individual and society. Prerequisite: PSYC 100 or permission of the instructor.

PSYC 210. Psychopathology. 1 Credit.**Offered Both Fall and Spring; Lecture hours:3,Other:1**

Covers theories and research on psychological disorders. Emphasis is on empirically based approaches to psychopathology including (but not limited to) developmental, cognitive and neuroscientific approaches. Prerequisite: PSYC 100 or permission of the instructor.

PSYC 211. Health Psychology. 1 Credit.**Offered Either Fall or Spring; Lecture hours:3**

An introduction to theory and research in health psychology. Prerequisite: PSYC 100 or permission of the instructor.

PSYC 212. Emotion. 1 Credit.**Offered Fall Semester Only; Lecture hours:3**

An introduction to theory and research in the psychology of emotion. Prerequisite: PSYC 100 or permission of the instructor.

PSYC 213. Abnormal and Clinical Psychology. 1 Credit.**Offered Both Fall and Spring; Lecture hours:3,Other:1**

A critical introduction to psychological disorders, theories of their causes, and approaches to their treatments. Includes an observational practicum in a psychiatric facility. Prerequisite: PSYC 100 or permission of the instructor.

PSYC 215. Psychological Statistics. 1 Credit.**Offered Both Fall and Spring; Lecture hours:3,Other:1**

An introduction to basic statistical analyses in psychology. Prerequisite: PSYC 100, NEUR 100, or ANBE 266 or permission of the instructor.

PSYC 227. Cross-cultural Psychology. 1 Credit.**Offered Alternate Fall or Spring; Lecture hours:3**

We will examine the proposition that mind and behavior are inseparable from culture across a broad spectrum of cultures around the world. Prerequisite: PSYC 100.

PSYC 228. Personality Psychology. 1 Credit.

Offered Both Fall and Spring; Lecture hours:3

Evaluation of theory and research on personality, including consideration of classic theories and their applications in current research. Prerequisite: PSYC 100 or permission of the instructor.

PSYC 232. Psychology of Women. 1 Credit.

Offered Either Fall or Spring; Lecture hours:3

Considers experiences of girls and women, gender differences, attitudes toward women, and issues of particular concern to women such as domestic violence, body image, and sexual assault. Crosslisted as WMST 231.

PSYC 233. Black Psychology. 1 Credit.

Offered Either Fall or Spring; Lecture hours:3

Black self-concept, the black family and self-awareness, "black English", skin color and physical attractiveness standards, black self-esteem, black views on prejudice and discrimination.

PSYC 234. Introduction to Sport Psychology. 1 Credit.

Offered Summer Session Only; Lecture hours:3

Considers the individual difference factors influencing athletic performance (e.g., cognitive, behavioral, and emotion). Also considers psychological processes operating in groups (e.g., cohesion, leadership, aggression and audience effects).

PSYC 235. Human Sexuality. 1 Credit.

Offered Spring Semester Only; Lecture hours:3

A survey of physiological, psychological, social, cultural and developmental considerations in understanding human sexuality, including sexual behavior, identity, health and relationships. Prerequisite: PSYC 100 or permission of the instructor.

PSYC 236. Drugs and Behavior. 1 Credit.

Offered Fall Semester Only; Lecture hours:3

How drugs of abuse work in the brain and how they affect behavior. Theories of addiction and addiction treatment, and issues of how drug use impacts individuals, families, and societies will be discussed. Prerequisite: PSYC 100.

PSYC 242. Positive Psychology. 1 Credit.

Offered Fall Semester Only; Lecture hours:3

This course explores the scientific study of factors that enable individuals and communities to thrive. The class is taught at a nearby prison with both Bucknell and incarcerated students. Prerequisites: permission of the instructor. Not open to first-year students.

PSYC 248. Developmental Psychobiology. 1 Credit.

Offered Spring Semester Only; Lecture hours:3

Addresses development in humans from conception through adolescence with some comparative analysis with non-humans. Emphasis on both normal and atypical cognitive, neuropsychological and neurobiological development. Prerequisite: PSYC 100 or NEUR 100. Crosslisted as NEUR 248.

PSYC 250. Biopsychology. 1 Credit.

Offered Both Fall and Spring; Lecture hours:3

Biological bases of behavior and their relationship to motivation, learning, and perception. Prerequisite: one of the following: NEUR 100, PSYC 100, BIOL 206, ANBE 266 or permission of the instructor. Crosslisted as NEUR 250.

PSYC 252. Sensation and Perception. 1 Credit.

Offered Both Fall and Spring; Lecture hours:3

Anatomy and functions of the sensory systems: vision, audition, kinesthesia, vestibular sensation, taste and smell, with emphasis on theory and abnormalities of the human sensory systems. Prerequisite: NEUR 100 or PSYC 100 or permission of instructor.

PSYC 266. Animal Behavior. 1 Credit.

Offered Fall Semester Only; Lecture hours:3

A survey of important theories, issues, and empirical techniques in the interdisciplinary field of animal behavior, emphasizing both proximate and ultimate explanations for behavior. Crosslisted as ANBE 266 and BIOL 266.

PSYC 270. South Africa: Social Entrepreneurship. 1 Credit.

Lecture hours:15

The course examines the legacy of apartheid and the role of social entrepreneurship in transforming communities. Students are placed in community organizations in nearby townships. May be crosslisted as ECON 270, MGMT 270, or WMST 275. Prerequisite: permission of the instructor.

PSYC 288. Applied Research Methods Seminar in Language. 1 Credit.

Offered Either Fall or Spring; Lecture hours:3

Research methods in language; especially development and acquisition in infants and toddlers. Prerequisites: PSYC 215 or MATH 216 and PSYC 100.

PSYC 289. Applied Research Methods Seminar in Health Psychology. 1 Credit.

Offered Either Fall or Spring; Lecture hours:Varies,Other:3

Introduction to research methods commonly used in health psychology. Prerequisite: PSYC 215 or MATH 216 and prerequisite or corequisite PSYC 211.

PSYC 290. Applied Research Methods Seminar in Physiological Psychology. 1 Credit.**Offered Either Fall or Spring; Lecture hours:Varies,Other:3**

Laboratory research to accompany PSYC 250 Physiological Psychology. Prerequisites: PSYC 215 or MATH 216 and prerequisite or corequisite PSYC 250.

PSYC 291. Applied Research Methods Seminar in Abnormal Psychology. 1 Credit.**Offered Both Fall and Spring; Lecture hours:Varies,Other:3**

Laboratory and/or field research to accompany PSYC 210 Abnormal Psychology. Prerequisites: PSYC 215 or MATH 216 and prerequisite or corequisite PSYC 210 or PSYC 248.

PSYC 292. Applied Research Methods Seminar in Sensation and Perception. 1 Credit.**Offered Either Fall or Spring; Lecture hours:Varies,Other:3**

Laboratory and/or field research to accompany PSYC 252 Sensation and Perception. Prerequisites: PSYC 215 or MATH 216 and prerequisite or corequisite PSYC 252.

PSYC 293. Applied Research Methods Seminar in Learning. 1 Credit.**Offered Both Fall and Spring; Lecture hours:Varies,Other:3; May require dissection or live animal experimentation**

Laboratory and/or field research to accompany PSYC 203 Learning. Prerequisites: PSYC 215 or MATH 216 and prerequisite or corequisite PSYC 203.

PSYC 294. Applied Research Methods Seminar in Human Cognition. 1 Credit.**Offered Both Fall and Spring; Lecture hours:Varies,Other:3**

Laboratory to accompany PSYC 204 Human Cognition. Prerequisites: PSYC 215 or MATH 216 and prerequisite or corequisite PSYC 204.

PSYC 295. Applied Research Methods Seminar in Emotion. 1 Credit.**Offered Both Fall and Spring; Lecture hours:Varies,Other:3**

Laboratory-based research on the psychosocial causes, characteristics, and consequences of human emotion. Prerequisite: PSYC 100 or permission of the instructor.

PSYC 296. Applied Research Methods Seminar in Animal Behavior. 1 Credit.**Offered Either Fall or Spring; Lecture hours:Varies,Other:3**

Laboratory and/or field research to accompany PSYC 266 Animal Behavior. Prerequisites: PSYC 215 or MATH 216 and prerequisite or corequisite PSYC 266. Crosslisted as ANBE 296.

PSYC 297. Applied Research Methods Seminar in Developmental Psychology. 1 Credit.**Offered Both Fall and Spring; Lecture hours:Varies,Other:3**

Students conduct observational research of children's behavior at Sunflower Child Care Center near campus. Prerequisites: PSYC 100, any PSYC 200-level course and PSYC 215.

PSYC 298. Applied Research Methods Seminar in Personality. 1 Credit.**Offered Both Fall and Spring; Lecture hours:Varies,Other:3**

Laboratory, field, or applied research to accompany PSYC 228 Personality Psychology. Prerequisites: PSYC 100 and PSYC 215 or MATH 216.

PSYC 299. Applied Research Methods Seminar in Social Psychology. 1 Credit.**Offered Both Fall and Spring; Lecture hours:Varies,Other:3**

Laboratory and/or field research to accompany PSYC 209 Social Psychology. Prerequisites: PSYC 215 or MATH 216 and PSYC 100.

PSYC 2NT. Psychology Non-traditional Study. .5-2 Credits.**Offered Fall, Spring, Summer; Lecture hours:Varies,Other:Varies**

Nontraditional study in psychology. Prerequisite: permission of the instructor.

PSYC 300. Infancy. 1 Credit.**Offered Spring Semester Only; Lecture hours:3**

Advanced seminar on human infancy as viewed from cognitive, developmental, and evolutionary psychology. Includes implications for infant survival and early education. Prerequisite: PSYC 204, PSYC 207, PSYC 248, PSYC 252, or PSYC 266.

PSYC 301. History of Psychology. 1 Credit.**Offered Spring Semester Only; Lecture hours:3**

A history of scholarly ideas about thought, feelings, and behavior. Prerequisite: PSYC 100 or permission of the instructor.

PSYC 302. Cognitive Development. 1 Credit.**Offered Spring Semester Only; Lecture hours:3**

Advanced seminar on how our cognitive system changes from the prenatal period to adolescence. Focuses on selected topics in the development of attention, memory, language, and concepts. Includes implications for education in formal and informal settings. Prerequisites: PSYC 204 or PSYC 207.

PSYC 303. Critical Psychologies. 1 Credit.**Offered Alternating Spring Semester; Lecture hours:3**

Critical psychologies (e.g., critical liberation, radical) are progressive alternatives to mainstream psychology, emphasizing untoward consequences of the mainstream focus on the individual. Prerequisite: PSYC 100 or permission of the instructor. A service-learning practicum is part of the course.

PSYC 304. Advanced Developmental Psychology. 1 Credit.

Offered Either Fall or Spring; Lecture hours:3

Analysis of selected topics in human development, such as gender issues, or religious and spiritual development, or other topics. Prerequisite: PSYC 207 or permission of the instructor.

PSYC 305. Developmental Psychopathology. 1 Credit.

Offered Either Fall or Spring; Lecture hours:3

Addresses the behavioral phenotypes of a variety of neurodevelopmental and neuropsychiatric disorders in the context of theories and processes of normal development. Genetic and neurobiological underpinnings of disorders are discussed. Prerequisites: NEUR 248 or PSYC 248 and permission of the instructor. Crosslisted as NEUR 305.

PSYC 306. Advanced Abnormal Psychology. 1 Credit.

Offered Either Fall or Spring; Lecture hours:3

Analysis of specific topics in the fields of psychopathology and/or clinical psychology. Prerequisite: PSYC 100 or permission of the instructor.

PSYC 307. Culture and Child Development. 1 Credit.

Offered Either Fall or Spring; Lecture hours:3

Study of culture-specific and universal processes in child development in diverse societies. Focus on cultural influences on social, emotional, and cognitive development, and on parenting, family, and education contexts and practices. Prerequisite: PSYC 207 or permission of the instructor.

PSYC 309. Appetite and Eating Behavior. 1 Credit.

Offered Occasionally; Lecture hours:3

Advanced seminar considering psychological factors involved in appetite, food preferences, and food intake. Prerequisite: permission of the instructor.

PSYC 311. Advanced Health Psychology. 1 Credit.

Offered Either Fall or Spring; Lecture hours:3

Advanced seminar considering current topics in health psychology, potentially including health behavior change, adolescent risk behavior, and/or social determinants of health.

PSYC 313. Researching Behavioral Neuroscience. 1 Credit.

Offered Both Fall and Spring; Lecture hours:3

Following a general orientation to behavioral genetics and pharmacology, including basic techniques of mouse handling, we will conduct group experiments. In addition, each student will develop and conduct an independent research project. Prerequisites: PSYC 215 or MATH 216 and PSYC 250 or an applied research methods course and permission of the instructor. May be crosslisted as NEUR 313.

PSYC 314. Cognitive Development Research. 1 Credit.

Offered Occasionally; Lecture hours:3

Advanced seminar examining how very young children understand words. Students conduct collaborative research projects culminating in oral and written reports. Prerequisites: PSYC 204 or PSYC 207 or PSYC 288 or LING 230 and permission of the instructor.

PSYC 315. Language Development. 1 Credit.

Offered Either Fall or Spring; Lecture hours:3

Advanced seminar examining how children learn sounds, words, and grammar. Focus on reading primary research sources. Special topics based on students' interests. Prerequisites: PSYC 207 or PSYC 204 or LING 230 and a PSYC methods course and permission of the instructor.

PSYC 316. Advanced Social Psychology. 1 Credit.

Offered Either Fall or Spring; Lecture hours:3

Consideration of experimental and theoretical issues in social psychology. Prerequisites: PSYC 209 or PSYC 228 and any PSYC research methods class or permission of the instructor.

PSYC 317. Comparative Animal Cognition. 1 Credit.

Offered Either Fall or Spring; Lecture hours:3

Advanced seminar in issues of nature/nurture, learning, development, and adaptation, in behaviors such as foraging, mating, and communication in several species. Prerequisites: PSYC 266 or ANBE 266 and PSYC 203. Crosslisted as ANBE 317.

PSYC 318. Cognitive Aging. 1 Credit.

Offered Either Fall or Spring; Lecture hours:3

Seminar discussing the development and changes in cognition in senior citizens. Topics include memory, language, attention, and decision-making. Prerequisite: PSYC 252 or PSYC 204 or permission of the instructor.

PSYC 319. Topics in Psychology. 1 Credit.

Offered Either Fall or Spring; Lecture hours:3; Repeatable

Occasional seminars on selected topics of current interest in psychology. Prerequisite: permission of the instructor.

PSYC 320. Children's Studies. 1 Credit.

Offered Fall Semester Only; Lecture hours:3, Other:Varies

Critical examination of childhood from multiple disciplinary lenses. Topics include children's advertising and consumerism, child labor, child soldiers, children's spirituality, children in diverse cultures, children and the arts. In this service-learning course students work with children/youth in field placements (e.g., Geisinger Children's Hospital, residential treatment centers). Prerequisite: senior status.

PSYC 324. Advanced Psychological Statistics. 1 Credit.**Offered Either Fall or Spring; Lecture hours:3**

A survey of advanced statistical techniques with emphasis on analysis and interpretation of experimental and correlational data. Prerequisites: PSYC 215 or equivalent and permission of the instructor.

PSYC 325. Advanced Personality Theory. 1 Credit.**Offered Either Fall or Spring; Lecture hours:3**

Consideration of current issues in personality psychology. Possible topics include: persons and situations, personality and health, and personality and relationships. Prerequisites: PSYC 228 and PSYC 215 or MATH 216 or permission of the instructor.

PSYC 326. Language and Cognition. 1 Credit.**Offered Spring Semester Only; Lecture hours:3**

Advanced study of language perception, production, acquisition, evolution, computational models and neural mechanisms. Focus on recent developments in the field. Prerequisite: a 200-level linguistics course or a 200-level psychology course from cluster A.

PSYC 327. Children's Social Development. 1 Credit.**Offered Either Fall or Spring; Lecture hours:3**

Seminar in children's relationships with parents, siblings, and peers in childhood/adolescence, and links between the social relationship and children's development in other domains. Prerequisite: PSYC 207 or permission of the instructor.

PSYC 328. Undergraduate Research II. 1 Credit.**Offered Fall, Spring or Summer; Lecture hours:Varies,Other:3; Repeatable**

Research or other independent study with a faculty member outside of the psychology department. Research topics may be posed by students or faculty. Cannot be counted towards the psychology major. Prerequisite: permission of the supervisor, Psychology Chair approval.

PSYC 329. Undergraduate Research. .5-1 Credits.**Offered Fall, Spring or Summer; Lecture hours:Varies,Other:3; Repeatable**

Research or other independent study on any aspect of psychology. Research topics may be posed by students or faculty. Prerequisite: permission of the instructor.

PSYC 330. Conflict and Peace in Northern Ireland. 1.5 Credit.**Offered Summer Session Only; Lecture hours:15**

Psychological and social aspects of the sectarian conflict in Northern Ireland. This is the seminar course in the Bucknell in Northern Ireland program. Prerequisite: permission of the instructor. Crosslisted as GEOG 330.

PSYC 336. Psychology Research in Denmark. .5 Credits.**Offered Summer Session Only; Lecture hours:Varies,Other:3; Repeatable**

Design and conduct research in Denmark on child development, family and parenting, and/or education as part of Bucknell in Denmark summer program. Corequisite: PSYC 337. Prerequisite: permission of the instructor.

PSYC 337. Child Development in Denmark. 1 Credit.**Offered Summer Session Only; Lecture hours:Varies,Other:3**

Core course in Bucknell in Denmark summer program. Focus on child development in Denmark and Nordic countries with comparison to U.S. Practicum included. Prerequisites: enrollment in Bucknell in Denmark program and permission of the instructor.

PSYC 339. Psychology of Music. 1 Credit.**Offered Either Fall or Spring; Lecture hours:3**

Seminar examining how musicians and non-musicians comprehend, remember, perform, and respond to music, including developmental aspects. Some background in music required. Prerequisites: PSYC 204 or PSYC 252 and permission of the instructor.

PSYC 340. Behavioral Neuroscience. 1 Credit.**Offered Either Fall or Spring; Lecture hours:3**

Advanced study of the relationship between the brain and behavior. Seminar discussion of complex problems in the field of behavior neuroscience including genetics, mood disorders, drug abuse, cognition and consciousness. Crosslisted as NEUR 340. Prerequisite: PSYC 250 or permission of the instructor.

PSYC 344. Developmental Brain Research. 1 Credit.**Offered Spring Semester Only; Lecture hours:3; Repeatable**

Students learn a variety of assessment techniques in developmental neuropsychology and neuroscience (including EEG) and conduct quantitative research culminating in written and oral reports. Crosslisted as NEUR 344. Prerequisite: permission of the instructor.

PSYC 348. Behavioral Pharmacology. 1 Credit.**Offered Spring Semester Only; Lecture hours:3**

Focus on drugs that affect the nervous system, drugs of abuse, therapeutic drugs, drug action, behavioral changes as a result of long-term drug use, animal models and human studies. Prerequisites: PSYC 250 or BIOL 205 and permission of the instructor. Crosslisted as NEUR 348.

PSYC 349. Human Neuropsychology. 1 Credit.**Offered Either Fall or Spring; Lecture hours:3**

Brain mechanisms of language, memory, and other processes as revealed by studies of human brain activity or pathology. Prerequisite: PSYC 204 or PSYC 250 or PSYC 252 or permission of the instructor.

PSYC 350. Culminating Research Experience+. 1 Credit.

Offered Fall Semester Only; Lecture hours:3

This seminar, worth 1 credit, turns a research project into a Culminating Experience. Covers research, ethics, proposal writing, public speaking, data presentation, and other professional issues. Course meets only 1 hour a week in most week. Students should not register for PSYC 329 or PSYC 360. Prerequisite: permission of the instructor.

PSYC 352. Face Perception. 1 Credit.

Offered Either Fall or Spring; Lecture hours:3

Advanced seminar in face perception, including issues of holism, uniqueness, language, emotion, and race. Prerequisite: PSYC 204, PSYC 250, or PSYC 252 and permission of the instructor.

PSYC 360. Honors Thesis. 1 Credit.

Offered Both Fall and Spring; Lecture hours:Varies; Repeatable

Prerequisite: permission of the department.

PSYC 369. Psychology of Beauty and Attraction. 1 Credit.

Offered Either Fall or Spring; Lecture hours:3

Examination of research on beauty and attraction from an evolutionary perspective. Prerequisites: PSYC 209, a Cluster C course and permission of the instructor.

PSYC 370. Primate Behavior and Ecology. 1 Credit.

Offered Fall Semester Only; Lecture hours:3,Other:3; May require dissection or live animal experimentation

Introduction to research on prosimians, monkeys, and apes with emphasis on the evolutionary origin of diversity, habitat use, social structure, social behavior, and cognitive abilities. Prerequisite: permission of the instructor. Prerequisites: BIOL 122 or BIOL 208 or ANBE 266 or BIOL 266 or PSYC 266 and permission of the instructor. Crosslisted as ANBE 370 and BIOL 370.

PSYC 371. Primate Cognition. 1 Credit.

Offered Alternate Fall or Spring; Lecture hours:3; May require dissection or live animal experimentation

An investigation into the cognitive abilities and capacities of nonhuman primates emphasizing a comparative perspective. Prerequisites: ANBE 266 or BIOL 266 or PSYC 266 and permission of the instructor. Crosslisted as ANBE 371.

PSYC 372. Evolution of Acquired Behavior. 1 Credit.

Offered Both Fall and Spring; Lecture hours:3,Other:3

Advanced seminar exploring cognition and behavior from evolutionary and comparative perspectives. Topics will include social behavior, memory, communication, spatial cognition, learning, and meta-cognition. Prerequisites: PSYC 266, ANBE 266, and permission of the instructor.

PSYC 373. Psychology of Race and Gender. 1 Credit.

Offered Occasionally; Lecture hours:3

Critical analysis of major theories. Emphasis on experimental research findings in the areas of racism, discrimination, gender difference, sexual violence, etc. Prerequisite: permission of the instructor.

PSYC 3NT. Psychology Non-traditional Study. 1-2 Credits.

Offered Fall, Spring, Summer; Lecture hours:Varies,Other:Varies

Nontraditional study course in psychology. Prerequisite: permission of the instructor.
