

# Social Justice Minor

---

The minor consists of five credits: a core course, three electives, and an integrative experience course. At least one of the five courses must be a community-based research/service learning course (See footnote<sup>1</sup>).

## Core Courses

The core courses are intended to provide students with the ability to assess contrasting views of what constitutes social justice and include both self-reflection and critical thinking. In addition, core courses may also give historical background on an issue or issues of social injustice and/or provide an introduction to concepts such as oppression and privilege.

PHIL 214	Social and Political Philosophy	1
POLS 210	Political Theory	1
ENST 255	Environmental Injustice	1

## Electives

To ensure interdisciplinary study and to encourage students to develop knowledge of a number of different social justice issues, electives are divided into five categories. A student must take their three elective courses from at least two of the five categories and from at least two different disciplines or departments. No more than two courses can be at the 100-level.
