# **SOCIAL JUSTICE MINOR**

#### **Faculty**

Coordinator: William F. Flack

The minor consists of five credits: a core course and four electives. At least one of the five courses must be a community-based research/service-learning course (see footnote<sup>1</sup>).

### **Core Courses**

The core courses are intended to provide students with the ability to assess contrasting views of what constitutes social justice and include both self-reflection and critical thinking. In addition, core courses may also give historical background on an issue or issues of social injustice and/or provide an introduction to concepts such as oppression and privilege.

ENST 255	Environmental Injustice	1
GEOG 218	Geographies of Justice	1
PHIL 214	Social and Political Philosophy	1
POLS 210	Political Theory	1

### **Electives**

To ensure interdisciplinary study and to encourage students to develop knowledge of a number of different social justice issues, electives are divided into five categories. A student must take their four courses from at least two of the five categories and from at least two different disciplines or departments. No more than two courses may be at the 100 level.

## **Poverty Studies Concentration**

Students may choose a concentration in Poverty Studies by choosing a core course and at least three electives that focus significantly on issues of poverty. These courses (see footnote<sup>2</sup>) allow students to combine their coursework with a Poverty Studies internship offered each year through the Shepherd Consortium.

- Community-based research/service-learning course.
- Poverty studies course.
