Geography (GEOG)

Faculty

Professor: Adrian N. Mulligan

Associate Professors: Duane A. Griffin, Vanessa A. Massaro (Chair)

Assistant Professors: Janet Adomako, Ritwika Biswas, Joseph Odura Appiah

Visiting Assistant Professor: Jenna Christian

Geographers are devoted to thinking spatially about people, environments and relations among them. Human geography focuses on the cultural/social, economic and political processes that create and reproduce the built environments and social worlds in which we live. Environmental geography lies at the intersection of the physical and human worlds, studying topics such as resources, hazards and environmental impacts. Physical geography, a natural science, focuses on the natural processes that interact to create the biophysical environments we depend upon. What links these disparate foci is an overriding concern with space and the various ways in which it matters.

Geography courses promote a fuller understanding of the world in which we live connecting our immediate, local surroundings to the global, where students develop critical thinking as well as contextual analysis skills, problem-solving, writing, researching, mapping, public speaking, information literacy and teamwork abilities. Students are also exposed to a range of methods from ethnography and archival research, to field and laboratory work; and using technologies such as Geographic Information Systems and Remote Sensing, thereby developing strong research and technical skills.

The geography major at Bucknell provides a strong background in the discipline while building a substantial foundation for a liberal arts education. Geography’s inherently interdisciplinary nature complements and integrates material from related fields, such as environmental studies, international relations, economics, history, women’s & gender studies, political science, geology, anthropology, sociology, climatology, philosophy and biology, making it an ideal choice for dual majors or as a minor. The geography major (or minor) provides strong preparation for careers or graduate study in the environmental and resource fields, international affairs, urban and regional planning, non-profits, government, business and marketing, journalism, law, health care, public service, teaching and a host of other fields.

Geography Major

The major in geography consists of a minimum of EIGHT courses which must include:

<table>
<thead>
<tr>
<th>Course Type</th>
<th>Number of Courses</th>
</tr>
</thead>
<tbody>
<tr>
<td>Two 200-level Human Geography courses</td>
<td>2</td>
</tr>
<tr>
<td>Two Environmental Geography courses</td>
<td>2</td>
</tr>
<tr>
<td>GEOG 204 Applied G.I.S.</td>
<td>1</td>
</tr>
<tr>
<td>Culminating Experience</td>
<td>1</td>
</tr>
<tr>
<td>Two Geography electives</td>
<td>2</td>
</tr>
</tbody>
</table>

1. This includes courses centered on the physical environment and human-environment relations. Some courses in other departments are accepted toward the major with geography department approval, for example geology, biology, and environmental studies & sciences.
2. Taken senior year (or second semester junior year with adviser and departmental approval). Courses fulfilling this requirement include 300-level or higher (non-methods/skills) geography courses or an independent study course designed for this purpose. In these courses, paper and/or project topics for the geography majors will be designed to ensure that the students draw upon their broader geographic education, thus providing them a more coherent appreciation of the discipline.
3. May be any 200-level or higher geography course, but may include up to two 100-level geography courses taken before declaring the major.

Geography Minor

The geography minor consists of five geography courses, at least one of which is a geography science course, and no more than one of which may be at the 100 level.

College of Arts & Sciences
Department and Program Learning Objectives

Majors in Geography will be able to:

Understand human-environment relations and spatial relations as a dynamic involving the interplay of social change and environmental change. (1, 3, 4, 6, 7)

Apprehend their role, both individually and collectively, in changing human-environmental relations and spatial dimensions of society. (1, 3, 4, 5)

Use space and spatial relations to understand society at different scales. (1, 3, 4)
Understand academic geographical study as providing a systematic framework for examining environmental and social problems. (1, 3, 4)

Engage in high-order, independent thinking, integrating spatial and human-environment relations into their analysis of problems at scales ranging from the global to the local. (1, 3, 4, 6, 7)

Synthesize insights in human and physical geography with those from cognate disciplines in social and/or natural sciences. (1, 2, 3)

**Courses**

**GEOG 101. Globalization, People, and Place. 1 Credit.**
Offered Either Fall or Spring; Lecture hours:3
Investigates the world from a spatial perspective to understand the complexity of places and the dynamic relationship between peoples and the world they inhabit. Open to first-years and sophomores.

**GEOG 110. World Environmental Systems. 1 Credit.**
Offered Occasionally; Lecture hours:3, Lab:3
Survey of physical geography, organized upon an understanding of how natural systems - climate, landscape, evolution, biological community - create the different environments of the world. Laboratory science course.

**GEOG 113. Human Impact on Environment. 1 Credit.**
Offered Either Fall or Spring; Lecture hours:3
Causes and effects of major environmental changes induced by humans, challenges to our future well-being, and opportunities for future sustainability. Prerequisite: open to first-year students only. Crosslisted as ENST 113.

**GEOG 123. Gendering Place: Sex and Power in Global Perspective. 1 Credit.**
Offered Occasionally; Lecture hours:3
By examining how gender, and ideas of masculinity and femininity, structure spaces and shape mobility, this course will explore how gendered power relations and gendered violence are regulated and maintained in place. Crosslisted as WMST 123.

**GEOG 175. Landforms of the World. 1 Credit.**
Offered Alternating Fall Semester; Lecture hours:3, Lab:3.5
Understanding the pattern of landforms around the world, the processes that created them, and their influence on humans. Laboratory science course for B.A. students. Prerequisite: juniors and seniors by permission only.

**GEOG 201. Special Topics in Geography. 1 Credit.**
Offered Fall, Spring or Summer; Lecture hours:3; Repeatable
Topics related to current events/issues in Geography.

**GEOG 202. Solving Problems With Maps. 1 Credit.**
Offered Either Fall or Spring; Lecture hours:3
Maps are powerful tools for solving social, technical, and individual problems. This examines the principles of map-making and map use.

**GEOG 204. Applied G.I.S.. 1 Credit.**
Offered Either Fall or Spring; Lecture hours:3
Introduction to the use of Geographical Information Systems to collect, structure, and display large or complex spatial data sets, using examples from human and physical geography. Prerequisite: permission of the instructor.

**GEOG 206. Mapping History: Nature, Place, and Power. 1 Credit.**
Offered Either Fall or Spring; Lecture hours:3
This course examines maps as markers of environmental history. Focusing on the North Atlantic and North America from the seventeenth century onward, the course will emphasize critical analysis of visual artifacts, the politics of cartography, and maps as records of our changing ideas about and impact on the natural world. Crosslisted as ENST 214 and HIST 215.

**GEOG 209. Economic Geography. 1 Credit.**
Offered Both Fall and Spring; Lecture hours:3
Inquiry into local and global changes in economic activity, location and spatial organization, especially focusing on implications for the well-being of people in particular places. Crosslisted as ECON 209.

**GEOG 210. Urban Condition. 1 Credit.**
Offered Fall Semester Only; Lecture hours:3
Geographic and sociological inquiry into pressing urban issues of advanced industrialized societies, including inequality, housing, employment, and how cities fit into the American present and future.

**GEOG 211. Political Geography. 1 Credit.**
Offered Either Fall or Spring; Lecture hours:3
Considers political processes from a geographical perspective across a range of scales, in particular analyzing the geographical arguments which shape international political relations.
GEOG 214. Europe in an Age of Globalization. 1 Credit.
Offered Either Fall or Spring; Lecture hours:3
Examines the European Union-a unique project that is neither federation nor intergovernmental organization-amidst increasing discord and disunion. Considers common issues such as nationalism, immigration, democracy and the economy from a geographical perspective; i.e., their manifestation in different places, and the role that different places play in their manifestation.

GEOG 215. Environmental Planning. 1 Credit.
Offered Spring Semester Only; Lecture hours:3
Explores the main approaches to planning theory and their environmental applications. Considers how environmental planning can promote the socio-ecological health and sustainability of democratic communities. Crosslisted as ENST 215.

GEOG 216. Borders and Politics of Mobility. 1 Credit.
Offered Either Fall or Spring; Lecture hours:3
Explores the politics of contemporary nation state borders, issues of territory, sovereignty, mobility, migration, identity, citizenship, statelessness, and focuses on borders at other scales. Crosslisted as IREL 216.

GEOG 220. Cultural Geography. 1 Credit.
Offered Either Fall or Spring; Lecture hours:3
Role of culture in shaping places. How cultures are geographically expressed, and how geography is a basic element in the constitution of cultures. Prerequisite: permission of the instructor.

GEOG 227. Geographies of Uneven Development. 1 Credit.
Offered Either Fall or Spring; Lecture hours:3
In this course, we will build a critical understanding of the nature and processes of development in the global south countries while exploring the role of colonialism, imperialism and capitalism. Includes topics such as global political-economic change, population growth, human capital, microfinance, food politics and gender inequality.

GEOG 228. Media, Space and Place. 1 Credit.
Offered Either Fall or Spring; Lecture hours:3
This course will explore the power implications of the connections between media and place. Media is shaped by places and society just as much as it shapes them. In the context of “fake news” and social media echo chambers, this course will query the continued relevance of media’s “where”.

GEOG 234. Human Ecology. 1 Credit.
Offered Alternating Spring Semester; Lecture hours:3
A general science course in human ecology, to demonstrate the ways humans continue to adapt to their environment through biological, cultural, scientific, symbolic, political, and technical means. Crosslisted as ENST 234.

GEOG 235. Marine Environment. 1 Credit.
Lecture hours:3
Understanding the ecological and physical systems of the ocean, understanding the processes of scientific discovery in the ocean, and exploring the many interactions that humans have with ocean systems. Crosslisted as ENST 235.

GEOG 239. Popular Music, Identity, and the Politics of Place. 1 Credit.
Offered Either Fall or Spring; Lecture hours:3
This course utilizes popular music as a means of thinking geographically about people and their connections to place, but also people’s interconnections with different places over time. Through different case studies, students will also consider the power of popular music to transform place, to challenge and overcome social divisions.

GEOG 240. Sustaining Nature. 1 Credit.
Offered Fall Semester Only; Lecture hours:3

GEOG 243. Placing the Past. 1 Credit.
Offered Either Fall or Spring; Lecture hours:3
Through the integration and utilization of geographical and historical thinking, this course encourages students to explore forgotten, marginalized, and occluded moments in place and time, from the perspective of considering their potential significance and usefulness in the contemporary period. Crosslisted as HIST 243 and UNIV 243.

GEOG 257. Climate Change. 1 Credit.
Offered Either Fall or Spring; Lecture hours:3
Understanding, the global climate system, how it has changed in the past, how it is changing now in response to human activities, predicted future changes, and our options for mitigating and adapting to them.

GEOG 258. The Human Planet. 1 Credit.
Offered Either Fall or Spring; Lecture hours:3
How humanity became an environmental force dictating the future of life on Earth and implications of that fact for individual and societal choices and actions, and the future prospects for humanity and our fellow species in an Anthropocene world.
GEOG 260. Exploring Sustainable Communities. 1 Credit.
Offered Summer Session Only; Lecture hours:6, Other:9
Course explores models for sustainable change used at multiple scales in the pursuit of creating thriving communities. Focus is on challenges and benefits resulting from local and regional initiatives to implement such changes. Through experiential learning and site visits, students explore relevant topics including food, energy, waste, place-making, and design. Crosslisted as UNIV 260.

GEOG 265. Geography of Pennsylvania. 1 Credit.
Lecture hours:3
Exploring the landscape, industry, culture, and history of Pennsylvania; using this example to understand the broad themes of human geography.

GEOG 267. Re-envisioning Waste: Considerations in Sustainability. 1 Credit.
Offered Occasionally; Lecture hours:Varies, Other:56
In a consumer society, trash is one of the largest things produced. Through case studies and field site visits students apply concepts of sustainability to discover ways individuals, communities, and businesses creatively tackle (and eliminate) waste, use waste productively, and re-envision waste as a resource. Crosslisted as UNIV 267.

GEOG 301. Topics in Advanced Physical Geography. 1 Credit.
Offered Either Fall or Spring; Lecture hours:3, Lab:4
Specialized topics in physical geography. Prerequisite: permission of the instructor.

Offered Either Fall or Spring; Lecture hours:3
Globalized investment, oil extraction, Oprah and Bono-endorsed RED products, a rising middle class: This course addresses contemporary political economy, meanings of ‘the continent’, and colonial legacy in Africa. We draw on human geography, African history, postcolonial and feminist studies, and literature to understand a rapidly changing continent. Crosslisted as CBST 302.

GEOG 304. Advanced GIS. 1 Credit.
Offered Occasionally; Lecture hours:3
Project-based opportunity to solidify existing skills and learn advanced techniques in GIS and map design. Prerequisite: GEOG 204, or GEOL 230, or HIST 201 or permission of the instructor.

GEOG 306. Topics in Advanced Environmental Geography. 1 Credit.
Offered Either Fall or Spring; Lecture hours:3; Repeatable
Specialized topics in environmental geography.

GEOG 307. Topics in Advanced Economic Geography. 1 Credit.
Offered Either Fall or Spring; Lecture hours:3; Repeatable
Specialized topics in economic geography.

GEOG 310. Geographies of Health. 1 Credit.
Offered Fall Semester Only; Lecture hours:3
Seminar considers health across places and society and issues such as inequality, ecological and other risks, political economic changes, and organizing health service provision.

GEOG 311. Geographies of Nationalism. 1 Credit.
Lecture hours:3
The course explores nationalism and its increasing popularity by considering it geographically; for example, its dynamic scalar dimensions, its forging of race and gender spatially, and its naturalization in landscape and built form. In so doing, we will critically consider those interests that nationalism serves. Crosslisted as WMST 316.

GEOG 312. Geographies of Nationalism. 1 Credit.
Offered Fall Semester Only; Lecture hours:3
The course explores nationalism and its increasing popularity by considering it geographically; for example, its dynamic scalar dimensions, its forging of race and gender spatially, and its naturalization in landscape and built form. In so doing, we will critically consider those interests that nationalism serves. Crosslisted as WMST 316.

GEOG 313. Carceral Landscapes: Understanding Geographies of Punishment, Policing and Detention. 1 Credit.
Offered Either Fall or Spring; Lecture hours:3
This course will examine how power systems of control and confinement reverberate to reshape society and space. This course will investigate the cultural landscape produced by drives to punish and confine populations, especially drives based on race, gender presentation, and citizenship status. Crosslisted as WMST 317.

GEOG 314. Geographies of Justice, Globalization and Sustainability. 1 Credit.
Offered Occasionally; Lecture hours:3; Repeatable
Explores social, economic and environmental issues surrounding globalization and focuses on the role of space for questions of justice, sustainability and social change. Drawing on scholarship in geography and cognate disciplines, students examine how social structures privileging dominant groups produce spatial inequality and marginality across global North and South countries.

GEOG 315. Undergraduate Research. .5-1 Credits.
Offered Both Fall and Spring; Lecture hours:Varies; Repeatable
Supervised research, readings, and/or preparation of a paper on some aspect of geography. Prerequisite: permission of the instructor.

GEOG 316. Undergraduate Research. .5-1 Credits.
Offered Both Fall and Spring; Lecture hours:Varies; Repeatable
Supervised research, readings, and/or preparation of a paper on some aspect of geography. Prerequisite: permission of the instructor.
GEOG 321. Special Topics in Geography. 1 Credit.
Offered Both Fall and Spring; Lecture hours:3; Repeatable
Development and growth of geographic thought; investigation, report and/or seminar on currently significant topics in geography. Prerequisite: permission of the instructor.

GEOG 322. Special Topics in Geography. 1 Credit.
Offered Both Fall and Spring; Lecture hours:3; Repeatable
Development and growth of geographic thought; investigation, report and/or seminar on currently significant topics in geography. Prerequisite: permission of the instructor. Crosslisted as GEOG 622.

GEOG 324. Geographies of Identity. 1 Credit.
Offered Occasionally; Lecture hours:3
Who are "we"? Seminar considers role of space in constituting society around the world. Explores nationalism, globalization, multiculturalism, citizenship, race, ethnicity, gender, sexuality, age, disability. Prerequisite: first-year students by permission only. Crosslisted as WMST 324.

Offered Either Fall or Spring; Lecture hours:3
A seminar in political ecology that explores the historical, social political and economic dimensions of environmental change in developing regions. First-year students and sophomores by permission only. Crosslisted as ENST 325.

GEOG 326. Thinking Space: Critical Reflections on Research. 1 Credit.
Offered Either Fall or Spring; Lecture hours:3
With an eye toward research design, proposal and grant writing, students will critically engage the role of the University in imagining, creating and understanding place. Students will think about space, how to study it, and, in turn, how studying space produces it.

GEOG 333. Knowing the Forest. 1 Credit.
Offered Either Fall or Spring; Lecture hours:3,Other:2
An immersive field-based course focused on understanding the environment from multiple perspectives including the natural/social sciences, the arts and the humanities. Class sessions will take place outdoors in nearby forests.

GEOG 345. Food and the Environment. 1 Credit.
Offered Fall Semester Only; Lecture hours:3
Nothing from the environment is more important than food production, nothing affects the environment more; we'll study both environmental and social circumstances. Crosslisted as ENST 345.

GEOG 350. Classical Marxism. 1 Credit.
Offered Fall Semester Only; Lecture hours:3
The goal is to develop an understanding of Marx's analysis of capitalism by reading mainly original texts by Marx and consider its applications both to disciplinary thinking and contemporary events. Crosslisted as ECON 350.

GEOG 420. Environmental Community Projects. 1 Credit.
Offered Either Fall or Spring; Lecture hours:3
Community-based "clinic" course on environmental problems or projects for local stakeholders, based on integrative, interdisciplinary research and design. Preference to senior ENST, ENSC, and GEOG majors.
